

OBJECTIVES OF THE OFFICE OF SECURITY FOR FISCAL YEAR 1964

1. Continue to process as expeditiously as possible both overt and covert type cases so the Agency can meet its staffing requirements and world-wide mission on a timely basis.

2. Implement within the Agency and the community the USIB Policy Statement on Security and Counterintelligence for the purpose of achieving stated policy goals. In this regard, it is proposed that a focal point be established within the Secretariat of the Security Committee to ensure the exchange of pertinent security information and for the preparation of special security studies.

25X1A13c. Continue to monitor developments in the international arena and

4. Continue to keep abreast in the electronic field with regard to techniques possible for hostile audio penetrations and to improve and develop technical detection, protection devices and equipment with particular emphasis on in-place protective devices. Expand the training of audio countermeasure personnel to include further knowledge of Agency activities and operations.

5. Commence the conversion and automation of the Office of Security indices in order to speed up the administrative processing of all types of cases. Review other activities and operations of the Office for automation potentialities. Improve the existing special clearance and case processing systems to provide better service to the customers.

6. Continue coordination with [REDACTED] and other Agency components to improve and further expand preparatory security planning in order to ensure a readiness security posture to support the Agency during general war, limited war and contingency situations.
